

System Requirements

Last Modified on 03/13/2016 12:35 pm CDT

SDK runs on all versions of Microsoft Windows and is available in 32-bit and 64-bit versions.

We highly recommend that you evaluate your computer before installing NumXL SDK to verify that you meet or exceed the minimum system requirements below.

| Component | Requirement |
|-------------------------------|---|
| Computer and Processor | 500 megahertz (MHz) processor or higher |
| Memory | 512 megabytes (MB) RAM or higher |
| Hard Disk | 32-bit version: 25 MB |
| | 64-bit version: 50 MB |
| Operating System | Microsoft Windows 7, 8 and 10 (both 32/64-bit versions) |
| Additional | Requirements and product functionality may vary based on your system configuration and operating system |

Notes

- SDK does not require Microsoft Office or Excel installed on the target machine.
- NumXL can be installed and run as part of your custom application on Microsoft Windows Server Operating Systems (e.g. Windows Server 2008, etc.).
