

```
'),o.close()}("https://assets.zendesk.com/embeddable_framework/main.js","numxl.zendesk.com"); /*]]>*/
```

Can I change the license filename to something else?

Last Modified on 03/18/2016 2:18 pm CDT

Yes. To do so, open your custom application configuration file (.conf)

1. Locate the **[GLOBAL]** Section
2. Edit (or add) an entry for **LICENSE**, and specify the new filename as the value

```
[GLOBALS]
# This is the location of the log file
# To alter the location, specify the n
# DATAPATH =
EULA = NumXL-EULA.rtf
PRODUCTID = 31223-200-163
LICENSE=TestApp.Lic
```
