

```
'),o.close()}("https://assets.zendesk.com/embeddable_framework/main.js","numxl.zendesk.com"); /*]]>*/
```

Where do I find examples for using the different functions in NumXL?

Last Modified on 03/18/2016 1:09 pm CDT

The installation package for the SDK includes several examples (found here) and the project on GitHub includes more examples to download (see here)
