

```
'),o.close()}("https://assets.zendesk.com/embeddable_framework/main.js","numxl.zendesk.com"); /*]]>*/
```

I am behind a firewall which causes the activation API process to fail, what can I do?

Last Modified on 03/18/2016 2:14 pm CDT

You may use our online webform to generate the activation code for your machine. Just launch your favorite internet browser and type in the form URL. Refer to "[Licensing](#)" section under Getting Started Guide.
